This booklet is dedicated to the several hundred Paw Paw boys who by their courage, skill, and loyalty during the past ten years have enabled Paw Paw high school to achieve its enviable football record and to their parents whose hearty cooperation has been an essential factor in building the school's splendid athletic tradition.

The records contained herein will grow increasingly significant to those who have participated in the contests with the passing of the years as the boys find themselves playing their parts in the bigger game of life and the details of their school activities are forgotten.

REDSKIN ALL STAR TEAMS  
1925-34

The players whose names appear below have been selected by Coach Emmert on the All Star Teams for the ten year period from 1925 - 34. He has chosen the players on their all around ability and has endeavored to select as nearly as possible well balanced teams both as to offensive and defensive play.

The fact has been taken into consideration that the Redskins opponents have been growing stronger from year to year and also that a poor player may show up better on a good team than a good player on a poor team.

It is not expected that every one who has seen all of the Paw Paw teams play during this period will agree with the selection. Every fan is at liberty to make his own choice of players.
